PERSONAL PROJECTS

NATCON (Natural Disaster Management System)
(04/2022)

- This is a project developed during a hackathon, which helps people who are stuck in natural disasters. This basically asks a few questions to the Victim of the disaster and takes this information and appends it in a . CSV file where that file is sent to the concerned authorities. This program also has a unique ID system that uses date and time as integer variables to keep a unique ID for each entry.

PROFESSIONAL SKILLS
